

SIMPLY PURIFY

TRANSPORTABLE

Wherever you are and wherever you go, OLEO water quality follows you.

Whether on a household tap, a camper van or a boat, the OLÉO PORTABLE adapts to your needs: drinking quality water, water magnified.

Oleo

PORTABLE

Technical features :

- Equipment included
- Sediment pre-filter to remove suspended particles down to 0.005 mm
- OLEO100 central unit containing SilCarb media (activated carbon metallized with pure silver): completes water purification, destroys chlorine (gives water a good taste), abates the accidental presence of micropollutants (traces of drugs, pesticides, heavy metals), intelligently manages limescale (anti-scaling agent), revitalizes water
- Quick-connect hoses + Spare wrench + Spare coils
- Water flow: 16 liters per minute
- Incoming water pressure : Maximum 4.5 bar, Minimum 2 bar (for full effect)

Advantages :

- Naturally purifies tap water (mains water to European standards)
- Compact and discreet (40 x 40 x 30 cm)
- Easy installation, no professional plumber required
- No electricity, electronics, chemicals or water loss
- Extremely low maintenance (details on request)
- 2-year warranty
